

Solaris – Rock Auger Pressure Tools

PREMIUM BULLET TEETH

Spend more time drilling & less time swapping teeth. Our rock Augers utilize our premium C3 1HD Plus Bullet teeth which have more carbide and last longer than capped bullet teeth.

REINFORCED KELLY BOX

Every Auger is keyed into the Kelly box ring and the Kelly box is further reinforced with twin gussets to minimize the risk of damaging or twisting off the Kelly box.

PERFORMANCE ROCK PILOT

Our Rock Augers feature the high-performing BT-700 Bullet-tooth pilot. The BT-700 features a proprietary array of six C31HD Plus Bullet Teeth works in tangent with your auger to maximize your productivity.
