Skid Steer Grapple KL1500-FF

Want to add a rotating grapple to your skid steer or tractor's front-end loader? Here's your answer!

Hardened steel teeth on the butt-plate facilitates lifting the logs to place them on firewood processors or sawmills.

Delivered with universal skid steer quick attach

- Weight: 585 lbs.
- Jib length: 34"
- Max capacity 3305 lbs.
- 59" grapple and 4.5-ton rotator standard
- Electric over hydraulic multiplier valve is now standard. Only 1 set of outlets required.
