KRPAN-80-GR38 PRO, 360-degree Heavy-Duty Rotating Log Grapple

KRPAN introduces the log grapple for professionals – a rotating grapple, specifically designed for excavators, able to handle the weight, abuse and torsion for heavy-duty logging applications. When purchased with the rotator, the hoses are contained within the yoke, reducing the risk of breaking hoses.

- 360-degree rotation
- Professional grade log grapple for commercial use
- Diverter Valve or 4-hose option
- Heavy-Duty & Durable
- Able to carry heavy loads and rotate
- Quick Action Cylinder
- Claws made of 3/5 grade 700 STRENGTH Steel
